Hobbies

IT: I have always been interested in IT and programming languages. Before I started the Full Stack Developer course I have looked at DevTools and admired the programming codes which were shown and how the websites are designed, it has motivated me to start the career as Full Stack Developer.

Music: I'm interested in music especially Hip-Hop and Rap it always gives me a lot of joy and understanding of other people happiness and problems when I listen to it.

Sports: I'm interested in all kind of sports but especially football I don't support any teams I like it in general. I enjoy to watch matches and to teach and play with my kids in my free time.
